At Mahalaxmi, our team efforts are put towards empowering our Clients to fight the battle of bulls and bears to emerge out to be winner.

We do not believe in intra day trading, as they are less profitable, stressful and it is very difficult to win everyday in stock market by doing intra day trading.

Daily Intra-day trading may be injurious to your wealth; Day Traders have habit of taking small profits and big losses.

We trust only in positional calls, our clients will get 2 to 3 positional calls per month depending on opportunity. You can multiple your investment in our positional calls, which has accuracy more than 95%.

Our policy is you earn first and then pay us.

Our advisory charges are Rs. 3000.00 per call, and we are taking our charges only after getting your profits (minimum 15000.00 per lot) and not before that hence first earn from our call then pay our charges. Only first time we will ask you deposit it advance, this help us to differentiate between serious clients / false enquiry.

We believe that when you need us – for our call queries – we should be close, informed and competent to handle your query. These steps have been taken with only one aim in mind. To make sure that you get best out put from our calls. We welcome all your comments and suggestions. Feel free to call us and voice your opinions about any aspect of our services or product.
